

INFORMATION AND MANAGEMENT SUPPORT STAFF  
WEEKLY REPORT FOR PERIOD ENDING 26 SEPTEMBER 1984

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

a. LIMS

(1) On 21 September, [ ] Chief, Terminal Systems Branch, ODP briefed the Logistics Staff Meeting on the subject of Wang vs. Delta Data. [ ] briefing described the technical differences between the Wang and Delta Data terminals and provided attendees with a clear understanding of why Wangs are not acceptable substitutes for Delta Data terminals. While Wang provides an excellent word processing capability, it cannot be used to access the Agency's main computer center in an interactive fashion. For this and a variety of other reasons, Delta Data terminals will be used in conjunction with LIMS.

[ ] (U)

(2) On 25 September, members of IMSS provided a LIMS briefing to Logistics personnel assigned to the Office of Communications, Foreign Network Division (OC/FND). The briefing provided insight into how LIMS will work at Basic Operation Capability (BOC). We explained our need to thoroughly understand how OC/FND Logistics personnel currently do business. Our goal is to work with them in establishing a comprehensive plan that will enable OC/FND to become our first LIMS customer and allow them to make the transition in a manner that will minimize the impact on their day-to-day activities.
